President's Message...

Dear ASHRAE Members:

Thank you to those who attended our March meeting and tour of 96 S. George St. in York. Thanks also to Mike Clatworthy, Don Eisenhower and Jeff O'Brien for their detailed tour and presentation. And a special thank you goes to Keller Equipment Sales for buying the first round of drinks!

We also want to congratulate Gary Debes, John Hayden, Bob Miller, Kirby Slear, and Rachel Voigtland who were all elected to serve on the nominating committee. They will be searching for qualified candidates to fill chapter leadership positions for the 2007-2008 ASHRAE year. Their work on this committee is vital to the life and future of the chapter. Please support their efforts. If any of you are interested in serving as a chapter leader please contact one of these members to express your interest.

On April 11th we look forward our annual Student Night. Students from PSU main campus will be at the meeting to share their senior thesis projects. However, we're going to try something new this year. The tech session will involve the thesis teams using story boards to present their projects to us in a more personal format. We will have the chance to ask questions and discuss the projects with the students. The main program presentation will be from the PSU Solar Decathlon team. The Solar Decathlon is a DOE sponsored event in which college students design and build solar powered homes. The PSU team will share their design for the 2007 competition. See the Solar Decathlon web site for more details.

Next month, May 11th, we look forward to our annual Family Night, a Senator's baseball game.

See the rest of the Pennant for more information about these and other upcoming ASHRAE activities.

With Sincere Thanks,

Jason T. Richwine, P.E.
President
Central PA ASHRAE

New and Exciting Student Activities Night!

Student Activities Night has always been a fun meeting and a great forum to show off the talents of our student members. This year we are excited to have new student guests and a new agenda. The evening will begin with the Penn State Student Chapter displaying their design project posters during cocktail hour, allowing members to see their designs and ask questions. After dinner two members of the Penn State Chapter will present their award winning design project. Finally, the Penn State Solar Decathlon Team will present their design for this year's competition in October. The Solar Decathlon is a competition in which 20 teams of college and university students compete to design, build, and operate the most attractive, effective, and energy-efficient solar-powered house. ASHRAE is a major sponsor of the competition and our chapter is proud to have a team from Penn State competing this year.

Be our guest ... and attend this live, satellite broadcast as ASHRAE presents:

Indoor Environmental Design: Practical Solutions to Everyday Problems

This broadcast will present specific solutions to the everyday challenges of achieving indoor environmental quality within real-world budget constraints. Speakers will describe how you can provide ventilation air that helps protect the building from mold risk, how to avoid the three most common mistakes in ventilation system design and operation, how to achieve all three goals of IAQ, thermal comfort and noise control at lower cost through better air distribution decisions, and how to provide comprehensive filtration without breaking your budget.
